Quality in every detail

EYSO GLOBAL

ABOUT US

EYSO GLOBAL is an international trading company based in Izmir, Türkiye. For five years, we have been building lasting business relationships under the EYSO GLOBAL name.

Our foundation combines 10 years of export experience with 15 years of experience in organised retail. This background gives us a practical understanding of international markets, retail expectations and the importance of dependable supply.

We bring together product sourcing, commercial coordination and export planning to help our partners build product ranges suited to their markets. Our aim is to make every business relationship clear, responsive and productive.

OUR APPROACH

We support importers, distributors and retail partners with an approach built on trust, clear communication and attention to detail. We listen to each market’s needs and work towards practical solutions that create value for both sides.

Through this catalogue, we present the Concord cleaning and hygiene range: wet wipes, surface cleaning towels, mop systems, laundry care and bathroom hygiene products.

From the first enquiry to order planning and shipment coordination, we focus on consistent service and long-term cooperation. We believe that sustainable growth begins with understanding our partners and keeping our commitments.
